PROFESSIONAL EXPERIENCE

RBP Finivis Pvt. Ltd. / Mego Forex

Sep 2026 – Present

RBI-licensed FFMC fintech group, Panchkula, Haryana · Consumer forex & remittance brand + B2B white-label fintech platform

Senior Marketing & Sales Manager | Oct 2026 – Present (reporting to the Managing Director)

- Own end-to-end **marketing and sales for two brands**: Mego Forex (B2C forex, remittance, forex cards) and RBP Finivis (B2B white-label fintech); also lead marketing for the group's newer products, including the POS / payment-gateway line and mobile banking app.
- **Lead the entire marketing and sales team**; all marketing and sales interns (design, PR, content, performance marketing, B2B sales) report to me. Given written authority by the MD to build the team independently.
- Run full-cycle hiring for the function: role design, shortlisting, interviewing and Zoho-standard onboarding; currently building a 5-role team (B2B sales, performance marketing, UI/UX design, content).
- Designed a **scalable sales intern programme**: lead interns with referral codes building their own rep teams, a probation-to-internship pathway with incentives, and conversion of top performers to permanent roles on higher commission.
- Drive **B2B sales** of the white-label platform and forex API integration to franchise networks, travel agencies, education and visa consultants and fintechs, on a commission-linked model.
- Proposed an **AI-driven sales-enablement system** (automated lead research producing tailored pitches and decks) to the MD; commissioned to write the proposal for an international technology partner. Co-lead go-to-market for a new AI product with the partner's leadership.
- Established content governance: final approver for all blog publishing; brand-separation rules between the B2B parent and consumer brand; SEO and review of the intern-programme website.
- Directing a **9-video website explainer series** (English + Hindi voiceover) covering the white-label platform and each consumer product, briefing design and in-house video teams.
- Coached an underperforming team member back to consistent output through clear expectations and timelines, retaining talent and avoiding a replacement hire.

- Conducted a full **Meta channel audit** (Facebook + Instagram) and turned it into a leadership-approved 30-Day Action Plan and Content Buckets & Calendar.
- Introduced an **A/B-test-before-scaling** approach for Meta Ads and an organic-first growth plan to fit a lean, budget-first marketing mandate.
- Cleaned up legacy social content for regulatory accuracy (licence details, lending-partner wording, outdated claims) to protect an RBI-licensed brand.
- Built LinkedIn page optimisation and organic growth strategies for both company pages (admin on both), launched the B2B brand's X (Twitter) account and supported the YouTube channel.

- Produced a 25-second product intro reel with AI voiceover in English and Hinglish for paid promotion; proposed a trade-show and consumer-fair event strategy to the MD.
